EXPERIENCE

COOP Careers, Inc. | San Francisco, CA

Jan 2025 – Jan 2026

Data Analytics Instructor (Team Leadership & Mentorship)

- Achieved a 92.3% cohort retention rate across 2 semesters by designing and facilitating 40 data analytics workshops covering SQL, Tableau, and Excel for 34 students.
- Improved student engagement and analytical confidence by co-developing structured curricula with 3 instructors, integrating real-world datasets, problem-solving exercises, and peer collaboration.
- Provided personalized 1:1 guidance during office hours to reinforce concepts and resolve individual challenges between sessions.
- Enhanced student career readiness by providing actionable, detail-oriented feedback on portfolio projects, including data visualization dashboards, Excel analysis, and SQL projects, strengthening students' technical and analytical skills for data-driven roles.
- Evaluated student progress through structured assessments and graded capstone projects, providing performance insights to track individual growth and identify areas for targeted improvement across 34 fellows each semester.

Beezwax Datatools, Inc. | Oakland, CA

May 2023 – Sep 2023

Business Intelligence Engineer Intern (Consulting & KPI Dashboards)

- Rebuilt 5 resource management dashboards in Tableau by maintaining, updating, and improving existing dashboards and creating 2 new dashboards from scratch based on clients wants and needs.
- Cleaned, consolidated, and formatted large datasets using SQL and Tableau LOD expressions allowing computation at data source level.
- Reduced manual reporting time by building an automated KPI pipeline integrating Google BigQuery with Tableau, delivering live, real-time dashboards that drove organization-wide adoption.
- Implemented a rigorous SQL-based validation and testing process to ensure data quality.
- Performed routine audits on dashboards, data, and computation formula to ensure accuracy across all systems, allowing clients to make decisions based on trusted information.
- Partnered with cross-functional stakeholders to define and document quantitative finance metrics (revenue, loss, profit, retention rate, conversion rate, utilization rate, etc.), aligning KPI deliverables to business requirements.
- Delivered Apple Claris financial dashboards 1 week ahead of an 8-week deadline, maintaining quality assurance, overcoming a 38% team resource unavailability rate.

Undergraduate Laboratory at Berkeley | UC Berkeley, CA

Jun 2021 - Sep 2022

Research Lab Manager (Operations & Team Coordination)

- Grew and managed an 80+ student mentor-mentee program, driving a 21% rise in research engagement and 16% growth in applicants by fostering a structured, community-driven environment that produced 11 completed projects.
- Upskilled 80+ participants in Python, Excel, and data modeling through interactive workshops and 1:1 mentoring sessions, building a pipeline of analysts prepared for academic and industry research.
- Collaborated with laboratory staff and industry professionals to expand program resources and outreach, broadening participant access to career opportunities and demonstrating cross-functional relationship-building skills.

Research Lab Mentor (Team Leadership & Mentorship)

Jan 2021 – May 2021

- Mentored 6 undergraduate students in analyzing COVID-19's impact on the sports industry and the role of social media in driving NBA audience engagement and revenue, presenting findings annually to UC Berkeley faculty.
- Instructed mentees in end-to-end data workflows, including data cleaning, transformation, and visualization using Python and Excel.

EDUCATION

University of California, Berkeley | Berkeley, CA

Graduated August 2022

Letters & Science - BA, Data Science

College of Engineering - Entrepreneurship & Technology Certificate

UC Education Abroad Program - Seoul National University, Seoul, South Korea

TECHNICAL SKILLS

Analytics & BI Tools: Tableau, Power BI, Google BigQuery

Languages & Data Tools: SQL, Python (pandas, NumPy, matplotlib, Scikit-learn), Excel (pivot tables, XLOOKUP, Index/Match, Power Query, nested IF statements, basic VBA/Macros, advanced formulas)

Workflow & Collaboration: Google Workspace, Microsoft Office Suite, Jira, stakeholder reporting, dashboard development

Coursera/Google Certifications: Google Data Analytics Professional, Google Agile Project Management
